I'm a passionate React developer with 2 years of hands-on experience building fast, scalable, and user-friendly web applications. I enjoy turning ideas into smooth, high-performing products using React.js, TypeScript, Redux, and Tailwind CSS. From crafting clean and intuitive UIs to optimizing performance and integrating APIs, I focus on delivering excellent user experiences. I enjoy collaborating with teams, solving complex problems, and continuously learning new technologies to build better, smarter web applications.

Work Experience

TECHIE NUTPAM | CHENNAI, INDIA

Frontend Developer   October 2023 – January 2024

- Developed and maintained 30+ web applications using React.js, Next.js, JavaScript, and modern frontend technologies.
- Collaborated with teams to implement features, improve UX, and create responsive, visually appealing interfaces.
- Optimized applications for performance, SEO, and cross-browser compatibility using React best practices.
- Reduced page load times by optimizing component rendering and asset handling.

MARKERZ GLOBAL SOLUTIONS | CHENNAI, INDIA

Fullstack Developer   March 2025 – Present

- Developed and maintained full-stack web applications using React.js, Node.js, and MongoDB.
- Built responsive and reusable frontend components with React.js and modern CSS frameworks, ensuring consistent UI/UX.
- Designed and implemented RESTful APIs for seamless communication between frontend and backend services.
- Optimized backend performance and database queries to improve application scalability and response times.
- Collaborated with cross-functional teams to gather requirements, debug issues, and deliver high-quality solutions
- Integrated third-party services and APIs to support application features and business requirements.

Expertise

- Reactjs
- Node js
- Mysql
- Php
- Mongodb
- Javascript
- HTML5 & CSS3
- Tailwand CSS
- Git
- Wordpress
- Shopify
- Wix

Project Expertise

MITOS

- Built a NEET mock test platform to help students prepare with interactive tests, detailed analytics, and formula/ equation support
- Designed it to handle 100,000+ users, ensuring smooth performance, secure authentication. Project Link

PRECISE3DM

- Enhanced user interface for Precise 3DM's web platform using React, improving responsiveness and user experience across devices
- Optimized data handling and state management with React, ensuring smooth functionality and improved performance for the platform. Project Link

CAREERFAST

- Developed and enhanced the CareerFast job portal using React.js, delivering a responsive and user-friendly experience across devices.
- Built key features such as job listings, job search & filtering, job detail pages, and application flows.
- Integrated backend APIs for job posting, user authentication, and application tracking.
- Optimized page performance and component rendering to improve load times and overall usability. Project Link

WORKSTATUS

- Developed and enhanced the WorkStatus employee monitoring platform using React.js, delivering a role-based user interface across devices.
- Built core features including employee activity tracking, time logging, productivity dashboards, and report views.
- Integrated backend APIs to handle user authentication, activity data, screenshots/logs, and performance metrics.
- Implemented efficient state management and data visualization components for real-time insights and smooth UI updates. Project Link

MONEY MASTER

- Developed and enhanced the Money Master web application using React.js, delivering a responsive and user-friendly interface across devices.
- Implemented dashboard views and data visualizations to help users monitor spending patterns and financial health.
- Integrated backend APIs for user authentication, transaction management, and secure data handling.
- Optimized state management and component rendering to ensure smooth performance and real-time UI updates. Project Link

Education
